

Interactive Timing Component System Display

Educate Customers on the Benefits of a Complete Timing System Repair

Timing belt failure can begin around 97,000 km so make sure your customers are aware that preventative maintenance now can avoid added expenses later, especially with interference engines.

**Retail price of over \$300
Yours for ONLY \$150!**

*Timing Component System Display
(Part # 91044) comes with:*

\$100 towards the purchase of ACDelco timing belts*

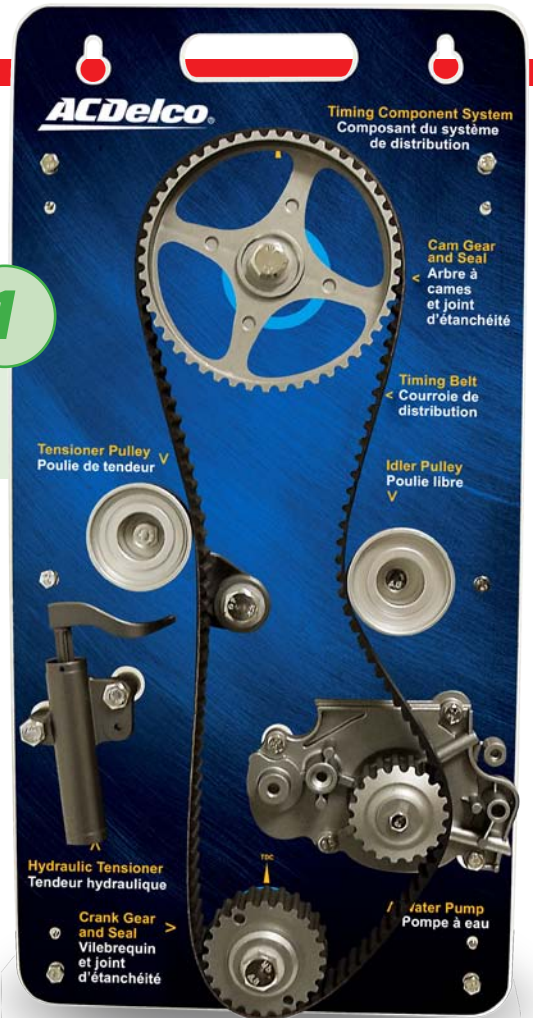

3

**Timing belt manual
(Part # 91474)**

2

Part # 91044

Actual display size: 12" x 26 1/2"

Can be used on the counter or mounted to the wall.

The goal of this new interactive timing component display is to help your customers better understand the interaction of the timing system components.

Promote the benefits of preventative maintenance and recommend a better system solution to your customers.

*\$100 is in the form of 4 x \$25 coupons that are shipped with the display and hold no cash value.
